Location:	RAF Croughton	Vacancy Number	174350
Open Date:	27 March 2024	Close Date	Open Until Filled
Work Hour Per Week	37.50	Salary (Per Hour)	£19.80 - £27.80

NOTE: Several vacancies may be available - multiple selections can be made from this announcement

Main Purpose

We are currently seeking a highly skilled and motivated individual to join a premier team of Engineers at the 422 Civil Engineering Squadron, Royal Air Force Croughton, United Kingdom.

This position will perform environmental program management duties to assist in the compliance with the United Kingdom - Final Governing Environmental Standards (UK-FGS), USAFE Standards of Environmental Excellence requirements and other policies and regulations. The primary function will be to provide day-to-day operations and management of the Hazardous Materials (HAZMAT), Hazardous Waste (HW), Petroleum-Oils & Lubricants (POL) and Environmental Management Systems (EMS) programs for the 422 ABG installations and geographically separated units. In addition, this position will support the Environmental Element Chief with other program management as required.

Responsible for executing assigned projects, in-house and by contract, to comply with all applicable Federal, state, and local environmental laws and policies. Coordinates curricula and training for assigned program areas at the installation. Maintain and updates associated electronic databases for programs management, while providing extensive environmental expertise to support assigned environmental projects through application of professional knowledge and skill in environmental engineering practices and processes.

If you're looking for a challenging, gratifying career supporting the US Visiting Forces in the United Kingdom -- this job is for you; apply today!

Knowledge and Experience Required

Applicants must demonstrate the following:

1. Knowledge of US Air Force environmental engineering principles, practices, techniques, and procedures to effectively perform project development, execution, training, and advisory services in assigned projects.
2. Knowledge to troubleshoot environmental engineering problems requiring investigation of unsanitary or questionable conditions in assigned projects (see Environmental Program Checklist).
3. Knowledge of applicable UK, UK FGS, Federal, State, and local laws, regulations, and other guidance to make decisions and recommendations concerning assigned restoration, compliance, conservation, pollution prevention, and/or integration principles and practices.
4. Ability to establish effective working relationships with others.
5. Ability to communicate effectively, both orally and in writing, clearly, concisely, and with technical accuracy

Other Important Information

- Hours of work: Start & end times may be modified due to mission needs and in accordance with organization's flexible working policies.
- Will be required to handle and safeguard sensitive information in accordance with applicable US and UK laws, rules, and regulations.
- Must obtain and maintain the appropriate security clearance.
- May be assigned other duties that are appropriate to the grade and skill set of the employee.
