Job Description

This position directs the comprehensive maintenance, repair, and overhaul of water distribution networks, industrial waste collection, and control systems. The incumbent leads personnel in troubleshooting plant machinery, plans complex tasks using technical blueprints, and oversees all preventative and corrective maintenance. Additionally, this role manages specialized tools and strictly enforces safety regulations to maintain a secure and compliant operational environment.

Qualifications and Key skills

Applicants are required to have a BTEC Level 3/City and Guilds/NVQ in an appropriate discipline (such as Mechanical (or) Electrical Engineering)

A valid UK CAT B driving license.

1. Knowledge in planning work and leading teams to perform corrective and preventive maintenance tasks.
2. Ability to teach, lead, and independently diagnose, plan, and complete projects or work orders involving major water and wastewater systems in their entirety.
3. Knowledge of mechanical, electric, and electronic procedures, hydraulic and pneumatic systems and components of industrial plant support machinery and equipment.
4. Knowledge of operating characteristics of the involved systems and equipment, and the applicable installation and repair procedures, methods, and trade practices.

5. Knowledge and ability to use and work with test equipment and measuring devices, such as micrometers, dial indicators, anometers, and volt meters.
6. Knowledge of safety practices, regulations, and procedures.
7. Knowledge of materials and parts used in wastewater treatment plant maintenance and installation of new equipment; and both primary/secondary water and wastewater treatment processes.
8. Skill in use of hand and power tools and a variety of test equipment.
9. Skill and ability to read and use the requirements in technical manuals, shop directives, multi-view blueprints, sketches, diagrams, work orders, and other specifications.
10. Ability to troubleshoot, repair, overhaul, and maintain water and wastewater treatment plant equipment.
11. Ability to make templates, jigs, and other fixtures required for repair or installation.

Other Significant facts

1. You will be required to handle and safeguard sensitive information in accordance with applicable US and UK laws, rules and regulations. This position may also be coded as mission essential.
2. You may be required to travel by military and/or civilian aircraft, and you may also be required to travel to the US or other country, in the performance of official duties or attend necessary training.
3. You will be required to complete a 6-month probationary period.
4. Start & end times may be modified due to mission needs and in accordance with organization's flexible working policies. Overtime may be required and you may be assigned other duties not included in this position description, but that are appropriate to the grade and skill set of the incumbent.
5. You must be able to communicate effectively both orally and in writing.
6. Will be required to train/guide lower graded (or other trades) military/civilian employees.
7. Pre-Appointment physical/health screening is required; appointment may be contingent upon passing a physical examination. The physical requirements of this position as determined by the manager are: Frequently handles objects weighing 45 pounds and occasionally carries objects weighing 45 pounds and over for considerable distances. Required to push, pull, reach, walk, stand, crawl, kneel, bend, and work in cramped positions over and under machinery of all types for sustained periods of time.

NOTE: You will require a security clearance and a right to work in the UK

This position may have certain restrictions on US citizens including US dual nationals due to the Status of Forces Agreement. For additional information contact the LNDH team on 01638 544955.
