Job Description:

The primary purpose of this position is to serve as an Aerial Port Freight Loader and Cargo Processor. To supervise personnel in performing general loading and off-loading of cargo aircraft, restraining cargo onboard aircraft using tiedown chains and devices, straps, nets and pallet rail mechanisms. To perform warehousing duties and operate motor vehicles, material handling equipment, forklifts and cargo loaders of all sizes up to and including vehicles with a gross weight of more than 32K and 60K capacity loaders.

The successful applicant will be responsible for supervising a team of 5 or more civilian, military and trainee aircraft loaders in the performance of aircraft freight loading and ground support duties, you will also be responsible for performing a broad range of standard receiving assignments, verifying shipments by checking shipping documents, and performing duties as a load and, or servicing team member, loading/off-loading/re-sequencing military and civilian aircraft. You will operate gasoline, diesel or electric vehicles typically with a gross weight of over 32,000 pounds and material handling equipment used to load/unload cargo and service aircraft latrine/water systems. You will also program the movement of cargo, to include special cargo involving dangerous/hazardous materials, out of the aerial port for expeditious movement to its final destination.

Qualifications and Key skills:

A valid UK category B driving license is required.

One year of experience as per the key skills listed below:

- Knowledge of cargo aircraft systems, configurations, equipment, emergency procedures, preflight inspection procedures, location of electrical power connections, circuit breakers, hydraulic operating system, and serviceability requirements.
- Knowledge of cargo aircraft capacity and limitations, floor load restrictions, shoring, restraint requirements, use of load charts and graphs as applied in consideration of weight and balance factors during preparation of load plans to provide the optimum center of gravity throughout flight.
- Knowledge of cargo/vehicle preparation procedures for loading and handling/placement of hazardous cargo, as well as knowledge in manifesting and shipping documentation requirements, cargo tie-down requirements, cargo inspection requirements, and cargo protection methods.
- Skill to direct crews when loading aircraft according to weight and balance factors, cargo destination, and emergency jettison plans.
- Ability to interpret and communicate technical orders and other published guidance; follow checklists and apply safety regulations, practices and procedures.
- Ability to operate motor vehicles: heavy motor vehicles, K-Loaders, forklifts, tugs, prime movers, and tow vehicles of various sizes and capabilities, and to perform routine vehicle operating servicing.

Conditions of employment

- You will be required to handle and safeguard sensitive information in accordance with applicable US and UK laws, rules and regulations. This position may also be coded as mission essential.
- You may be required to travel by military and/or civilian aircraft, and you may also be required to travel to the US or other country, in the performance of official duties or attend necessary training.
- You will be required to complete a 6-month probationary period.
- Start & end times may be modified due to mission needs and in accordance with organization's flexible working policies. Overtime may be required and you may be assigned other duties not included in this position description, but that are appropriate to the grade and skill set of the incumbent.
- You must be able to communicate effectively both orally and in writing.
- May be required to work other than normal duty hours, which may include evenings, weekends and/or holidays. Subject to shift work, rotating shifts, uncommon tours of duty, and emergency overtime. Overtime cannot be guaranteed and should not be expected.
- Must be able to work at elevated heights, up to 237" off the ground and able to climb aircraft stairs.
- This is a drug testing designated position. The incumbent is subject to random testing for drug use.
- May be required to receive vaccinations as an occupational health precaution due to potential exposure to bio-medical hazards (i.e. blood born pathogens).

NOTE: You will require a security clearance and a right to work in the UK

This position may have certain restrictions on US citizens including US dual nationals due to the Status of Forces Agreement. For additional information contact the LNDH team on 01638 544955.
